Dear Dr. Buckley:

On October 26, 2007, the Department of Health, Health Regulation Administration, conducted a monitoring visit, at your facility identified above, to determine if your facility had implemented its plan of correction submitted on August 3, 2007. The monitoring visit determined that your facility failed to implement its plan and was operating in noncompliance with federal standard level and local licensure requirements. On November 13, 2007 a second plan of correction was received and accepted. Please note, as a result of continued non compliance, civil monetary penalties may be issued. Surveyors from our office may revisit your facility at a future date to determine effective implementation of your plan as indicated in your second plan of correction..

If you have any questions regarding this matter, please contact Sheila Pannell, Supervisory Health Services Program Specialist, Intermediate Care Facilities Division on (202) 442-5888.

Sincerely,
